

BLACK

GOLD

& YOUR PENSION

& YOUR PENSION

Black Gold is available as a fund choice for people who want to take control of their pensions via a Self Invested Pension.

This option is available for pension holders in Ireland and in the UK. Moving your pension to a Self Directed option is straightforward, like changing Bank Account.

Once you move your funds you will have a very large choice of funds to diversify your investments, Black Gold just one option. It is very important to diversify your portfolio, and you will have ample scope to do so.

Going Self Invested does not restrict your options, it enhances them.

Self Invested Pensions are administered by duly qualified and authorised Trustees.

For example:

UK - Stadia Trustee: www.stadiatrustees.com

Ireland - Independent Trustee Company (ITC): www.independent-trustee.com

Most people can avail of this option. For example

- Self Employed and Professional People.
- Company Directors/Key Employees.
- If you have an old paid up personal or company pension.

If you invest in Black Gold via pension the monthly cheque is sent directly to your Pension Trust. At Black Gold we do not give pension advice, so contact your Financial Adviser or the Trustees above. They can advise you on your options.

Please note: This investment does not require licensing, authorisation or registration with the Financial Regulator and as result, it is not covered by the Financial Regulator's requirement designed to protect customers or by a statutory compensation scheme.

Risk Factors: If the price of Oklahoma Sweet Crude falls below \$45 per barrel then this will generate a loss. This investment is in US Dollars. A fall in the dollar against your local currency could lead to loss.
